A few of our hearty Class of '56 alums had a Zoom meeting last Friday...and as they say, "a great time was had by all". We'd like to *expand* our base of 13 members...seems funny to be saying that when we're all 82 years young!

Our last in-person reunion was in 1997...when about 140 alums attended. All those records showed home, not email, addresses.

So, we are hoping that some from our class donate to the Bloomfield Education Foundation, and that you might share with us who they are (or let them know we are trying to contact them)?

Or, is there an active Bloomfield High Alumni Association...that might put more of us together?

We had our 2nd Zoom of 2022 yesterday, with 23 classmates attending. Brandon Doemling represented the high school, and gave an informative update of his departments class offerings, productions and funding.

Our next is planned for Friday, June 1. This event is chaired by alums Ann Zimmerman Crane, Bob Alvine and Bill Payne.

Thanks for getting us started, and for your good suggestions.

Nov 5, 2022 Update and Results

We have had 5 reunions by Zoom, commencing last March, 2021. Of the 60 or so classmates found, all 84 years old, 8 attended the first Zoom then 12, 15, 18 and the last one, 22 alums.

You have the speakers thus far, correct. Looking for though for the next.

A very few alums seem to have visited each other, as we're spread out mainly on both coasts, and most are likely in Florida.

Classmates seem to enjoy themselves, with new faces joining us each time. Zoom reunions are really so convenient, i.e. no one has to leave the comfort of their living rooms to join in. We all have different stories to tell as we age, but certainly the time we spent together at BHS was all so memorable and...the best years of our lives!

Bill

December, 2022 Newsletter

Our Zoom #5 Reunion was our best attended yet...with 22 of us each adding our 2 (or is it now 3) cents worth! A combination of those that have Zoomed with us before, with a pleasant addition of many "new" faces. How many can

you identify?

And wasn't the talk by Brandon Doemling, the drama and musical instructor, interesting? The productions we did when we were at BHS are fond memories, and Brandon assured us that the tradition continues. He and his wife have also been very involved with Talent Time (now the Charles Sellers Foundation) and he has provided this video <https://youtu.be/MjAhd029iDI> for your viewing pleasure.

One of the Z-5 gals asked if we had any information of Ernie Rice. Ann Dassing (Bloomfield Education Association) from an old Alumni Directory, related that he was a salesman with Forney Industries, in Ft. Collins, CO, but with a residence of 14 Longview Road, Cedar Grove 07009. 973.239.1324, (maybe confused with Bob Rice) and erice5@optimum.net, spouse, Antoinette. I think I could only find an obituary for Antoinette, who had just passed away.

Bob Alvine reports on the passing of multiple reunion participant, and his longtime friend, Dick Quodomine. Bob's thoughts are also attached.

And we too report the passing of fellow classmate Michael Greenleaf, Obituary enclosed.

And, early I know, but for those of you already with 2023 calendars, Zoom #6 is scheduled for Friday, May 5...regular time.

We wish you a very Merry and memorable Christmas and New Years'...and that we all reunion again in 2023.

Dick Quodomine, Remembered

I learned a few hours ago that a very long time friend from 7th grade and who has been actively participating in our reunions , Dick Quodomine,

passed away this morning.

He and his wife Helen of over 50 years have lived in Ft Meyers, Florida for at least the last 20 years.

His son Richard is in Philadelphia, working for the City in a nice position and their daughter Maurie lives in Baltimore with her partner and she is an independent researcher.

It will take a while before they publish an obituary.

I will advise as soon as it's ready.

I am sure my Joann and I and my son will go there for the funeral.

We found this link on former BHS band director, Ray Hartman...now living out his days in Florida. <https://www.wpbf.com/article/102-year-old-man-celebrates-birthday-with-trombone-trio/37671653>

He has agreed to be our speaker at our next reunion, by Zoom, on Friday, May 5.

Feb., 2023 Update

The Class of '56 will hold its first reunion of 2023 on May 5, 3 pm east coast time, by Zoom. This will be the 6 th such get-together since the alums organized in early 2021. Class leaders (Ann Zimmerman, Bob Alvine, Sal Accardo and Bill Payne)

have located 62 living alums, now all 84 years old, and another 96 that had since passed away. Four hundred sixty six were in the graduating class.

Last November, 22 classmates Zoomed in. As has been their custom, a current BHS administrator or teacher has spoken about how traditions are now, as contrasted as how they were. Speakers have been Ann Dassing (Bloomfield Educational Foundation), Chris Jennings (principal), Michael Carter (head football coach), and Brandon Doemling (drama teacher).

Ray Hartman, now retired and beloved BHS band director, 103 years young and living in Palm Beach Gardens, Florida, will speak this May...and play his trombone (<https://www.wpbf.com/article/102-year-old-man-celebrates-birthday-with-trombone-trio/37671653>) Ray had a 32 year stint at BHS, beginning in 1947. Our senior year had 79 members in the band plus 13 cheerleaders, 16 twirlers, 6 flag wavers and 4 color guard members. and, Margie Laidig, band majorette!

May, 2023 Newsletter

OK, it's finally here: our Class Reunion by Zoom, 3 pm east coast time, THIS FRIDAY. You'll be getting the link on Thursday, from Zoom Master Fang Ho (FHo); look for it. Buddy LaVacca is to address us.

Annie Z reports that a severe tornado headed for her area of Florida (Tampa) actually caused quite a bit of havoc where former band director Ray Hartman lives (in Palm Beach Gardens). As such, I've emailed and called Greg Prakus (Ray's 24/7 live-in caregiver) to see that they are OK, but haven't confirmed yet. His TV gig is enclosed.

Our esteemed band director is slated to be our *special guest* Friday, even offering to play a few ditties on his trombone! He's now received copies of pictures with names and tidbits from our Yearbook, of not only band members, but of cheer/flag/twirlers, band formations at football games, cheer/flag/twirler advisors, and of band rehearsals (Ann Lavery, on behalf of Student Prints, has had carefully stored all these years).

In an attempt to lighten things up, enclosed is *the menu* from Bonds...the Awful Awful place (at their peak, there were 4 or 5 of them). Can you beat those prices? I got one free, only once!

No new classmates found, but obituaries located, for: Ted Stempel (from A Lavery); William Harris; Gail Maurer (from Legacy.com); and homeroom teacher and Student Prints advisor Loren Leek-Pipp-Leek. Gail went to Mountainside School of Nursing with Marjorie Laidig and Barbara Skoie; Kay McCormick matriculated there too, but for the 3-year program.

Our reunion merited a special mailing of Ann Dassing's *Bengal Banter*...which hopefully many of you saw.

See you all Friday. Come when you can. Leave when you must. These are always fun and interesting.

Fall, 2023 Newsletter

Hoorah, college (and pro) football is back...and our Bengals begin play with only an 8 game season, sans the Montclair Mounties! Summer is still hot; we trust whoever invented HVAC made 'a ton' of money. And, some of us have endured major rain storms, leaving havoc for some. And, those of us that have been to Lahaina certainly mourn for the total destruction of that most-fun place to visit (how many of us have had a Mai Tai at the Plantation Inn?).

We have but one find, Don Sutherland (bio enclosed) and mourn the loss of Gert MacRae, a best friend of the Deae's. To lighten things up a bit, enclosed is a photo of Holsten's (not Holsteins) and a squib on the final episode of the well-watched HBO series, the Soprano's...filmed there.

We expect to have copies of the concert band recording shipped out soon. And, we think we've located Billy Maciunski. Bill: was a boxing champ as you recall; played football; didn't join the Navy, but did the Marines; and served on the USS Saratoga (being a part of the cadre that protected the Admiral). We just talked to his son, in Neptune City, NJ.

Please save the date for our next Zoom-linked call, on Friday, November 3 at 3 pm east coast time. Go Bengals!

Don Sutherland Response

August 23, 2023

Hi Bill,

Got your phone messages and letter. Thank you for contacting me. It has been a long time since I have communicated with anyone from the Class of 1956. I am not sure if you and I had much contact in high school (please straighten my memory out on that one) but Bob Alvine, Ann Zimmerman, and myself were together from start to finish in the learning process: Brookdale Elementary, Bloomfield Jr and Senior High. Bob and I lived, probably, less than a half mile from one another.

Anyway, I would consider being find #82 an honor and privilege. I am happy to know that there are at least 82 of us! I believe our graduating class was over 400 students (actually, about 468). Hopefully, there are a few more than 82 still here! Maybe David Mead is find # 83 but I have had no contact with him.

You, Bill, have heard from me! I will log the next Zoom on November 3rd, 3 PM into my calendar. The Newsletter sounds interesting as well. Kudos to Ann, Bob, Sal (deceased), and

yourself for undertaking this activity. As our Yearbook "Memories" is called, your contact has

brought back many of them including me getting out and looking at my copy of the year book.

Regards, Don

Couple of notes:

1) I was never in either the Jr. or Sr. High bands. Took piano lessons for many years but pianos Don't fit well into bands!! Have always enjoyed music. ... As I recall, BHS had an underclassmen student also with the name Donald Sutherland. No relation to me. He might have been in the band and the person you are recalling.

2) Appreciate the pix of Holsten's. I think it is still a business. They had great ice cream. Particularly enjoyed their strawberry shakes (when I could afford them). We called the store Strubbies. ... Used to get gas at the gas station to the left of Holstens! Used to buy a Dollar's worth of gas! Grew up as a youth member at the Watchung Presbyterian Church right around the corner (David Newson was the minister and had a great youth program; got married there as well) and delivered flowers for Boehm's florist.

Grew up at 48 Lindbergh Blvd. My grandparents lived down the street at 124 where we moved to after they died (I was in college). ... I have always been a techie. Watched my father build the first neighborhood TV set in the mid 39's;and 40's. Got my amateur radio license at 13. Big into building

equipment and fixing neighborhood radios. Graduated with an electrical engineering degree from Lafayette College in 1960. Worked for IBM for 36 years in technology, intermediate systems design, and large systems planning. Did my MSEE (Syracuse) to keep up with the rapid changes in the computer field, and an MBA (Marist) to deal with the business aspects of working with the field organization and IBM's large systems customers. Retired at the end of 2000 after a good, challenging, and satisfying career.

Married Lynn Becken Launer, a Glen Rock lady, in 1966 and we moved into a home in Woodstock, NY. Raised three children there. With all three children living independently and faced with unknown

IBM downsizing (tens of thousands in 1990 timeframe), Lynn and I sold the Woodstock house and rented (later bought) a townhouse in Port Ewen, NY where I continue to live. Lynn left us in 2016 after almost 50 years of marriage because of Alzheimer's (the saddest time of my life). ... I dated Judy Braun my senior year and into college. Judy, I believe, got married and was living in England. As you have noted, she has passed. ... During high school, besides amateur radio and working jobs, I was involved with neighborhood pickup sports. Remember outdoor basketball in the middle of winter (yeah, we snow shoveled the driveway to get at the basket). Touch football was played in the streets. We used the ball field at Brookdale School for baseball; Brookdale Park entrances were off Watchung and Bellevue Avenues - not that convenient to get to. A lot different than organized youth sports today!

Probably more than you want, Bill. ... Today, I continue to be a techie ... Into aviation (own an airplane and am a certified instructor), am the project lead on a townhouse restoration project, doing an audit for our church, etc. ... Best of all: Have a happy, healthy expanded family with three grandsons. Two are in college (one is at Lafayette which brings back a ton of memories!). I really don't have any strong desire to travel - did that with work. Health is good (take one pill, have one cranky knee). Basically, a happy camper! Gotta give some of the credit to Bloomfield Schools! ... AMEN!

Our June Zoom included 17 classmates, and we carried on for probably 1 hour and 45 minutes, a mixture of regulars and a couple newcomers. The subject was *Yearbooks*, and knowing that was to be the BHS speaker subject, most attendees held up their copy of the Yearbook when they introduced themselves!

June was a *banner month* for the Class of '56! We're now up to **94** found classmates (from a class of 463), to go along with a list of 119 now deceased.

The new *arrow in the quiver* is utilizing *TruePeopleSearch.com*, after finding a married name and city/zip code on [classmates.com](https://www.classmates.com). Please welcome June Day, Paul Stewart, Bev Winkler, Carol Stubbs, Jean Abbey, Walter Riker, Tony Marden, Barbara Yackel, Rosanne Druian, Peter Ferick Patricia Howlett and Ray Barleon. And, obituaries were found on Nancy Cueman, Pat Weber, Rudy Meir, Jack Van Orden and Wayne Almquist; this edition will be replete with other information, so obits will be circulated in future issues.

Ray and Walter heeded our suggestion to write their what-have-I-done-since high school, and those are enclosed. Informing Ray that we had just heard from two advisors to the *Memories Yearbook* staff at BHS, prompted him to pass on an article written in the *Independent Press* touting our continually being awarded *among the best* in an annual yearbook competition.

And Bob Alvine found a ranking of Best Ice Cream shops in New Jersey...and of course Holstens was on that list.

Our next Zoom is scheduled for **November 1**, when Terry Iavarone, the girls' Varsity track and field coach will speak. His teams have won the last three league championships!

Happy summer ahead. Please keep well and keep in touch...with each other. We are the survivors and thankful to be so.

Dear Gill,

Thanks for your letter, and would be glad to receive your monthly newsletter.

Yes I still have and treasure my Memories '56 yearbook, and you signed mine also with a nice paragraph of kind words. I think we all did an outstanding job on producing that yearbook. We won an award. In my book I had pasted a clipping from a local newspaper back around L956. Perhaps it was from the Bloomfield "Independent Press". Here's a copy for you, the original worn and torn, but still reflective of all our hard work and excellence.

We were so fortunate to have had so many great teachers and inspirational, devoted fellow students"

I was not able to attend the 4r year reunion in tg97 because I had very important responsibilities that would not permit me to interrupt, but it's clear from the VHS video that you all had a wonderful time.

Bill,

Thanks for the shout out.

In 1964 at the Olympic trials in Los Angeles, I ran 4:11.9. This at the time, was the best winning decathlon 1500m run by a decathlete, who had won the US Olympic trials.

At the Olympic Games in Tokyo, I placed 10th overall.

My 1500m time there of 4:19.3 was the fastest 1500 m run by a decathlete up to that time.

If I remember correctly, that time lasted for two Olympic Games.

I think a Russian decathlete after that finally ran a 4:08 to best my time.

Since then, I watch our Olympic decathlon qualifying times and the Olympic Games times in the 1500 m decathlon; especially, to see how my time compares with our current US and foreign decathletes when they run their 1500m compared to mine back in 1964.

If my memory serves me correctly, in the last two US trials and the Olympic Games my 1500 m time stack up very well to our modern decathletes.

That said, Decathlon performance levels and final results are all far superior to what we did back in 1964.

My 7728 would not even qualify to participate in the US trials this Olympic year.

My 4:11.9 still fares very well with this year's best 1500m time of 4:31.

We will see how my time of 4:19.3 will compare to this year's decathlon 1500m time in Paris.

Dick

P.S. Bill, thanks to you and the rest of the group that brought the class of 1956 together. I look forward to our next zoom meeting, to enjoy the companionship of fellow Bengals.

Best regards to all, "the class of 1956"

Frank Reddington, Update

Hi Bill: Thanks for contacting me. We made our last trip back to New Jersey a few years ago, saying good bye to BHS, Holsten's and my Dads and Grandmother's graves, and a few friends.

After graduation in 1956 I served in the Navy for 4 years, then worked for my dad in the building trades. After that I began a career in the automotive world.

In 1967 I married the love of my life, Barbara, a Jersey City gal. When my dad passed

away we felt it was time for a change and we decided Southern California was to be our new home. My mom followed shortly after. It was there I became self-employed in the auto service industry. The Lord provided 4 wonderful children and after raising them we decided it was time for another move...this time, to Arizona, in 2005.

After selling the business and our now empty nest home we took an extended trip around the country in our fifth wheel RV. We moved into our new home.

I quickly became bored sitting on the couch, so I took a part time job driving a school bus...finally retiring for the last time in 2013.

Having survived cancer twice, I enjoy life playing in my garden. At soon to be 86 years old there is not much else I can do.

Best Regards,

Frank M. Reddington

With the much anticipated and long Labor Day Weekend, gives us ample time for another BHS Class of '56 walk down *memory lane*. And, for all of us that cherish college football... it's back. Hoorah!

August saw us add David Mead (thanks to Art Ackerman). David's what-have-I-done since high school is herein attached.

Of general interest, with enclosed information, is the Bloomfield Foundation flier on the returned Montclair-BHS football game tailgate, and a What was This For photograph...which none of the participants seem to recollect its purpose!

But we have lost Neil Eckberg (in 2016), Bernice Mazeritz (on March 4, cardiac arrest, according to her son, Ted), Leonard Schwab and Ernie Rice (the last two reported by Bob Delezenski).

Obituaries are enclosed for Susan Kolodin and Ernie Rice. Those on Eugene Butler, Rudy Meir, Jack Van Orden, Kurt Hirsch, Wayne Almquist and Andy Svenson will be included in future issue of our Newsletter.

Our next Zoom is scheduled for Friday, **November 1**, when Terry Iavarone, the girls' Varsity track and field coach will speak. His teams have won the last three league championships! Walter Riker will be our Zoom master. Time is 3 pm, east coast time.

Thanks for those of you who choose to stay in touch...as that is really the aim of this continuing Class endeavor. But, hopefully all of you are excited to learn what has been going on...maybe even anticipating "what's next"...

David Mead's Journey

One year in college. Four years in the U.S.A.F. stationed in Gaum and completing my enlistment at Dover A.F.B. Delaware. After the air force I worked in retail towards a management position. I Was a manager for 10 years in three different locations. Met and married my wife, Kathie, at my first store as manager at, Asbury Park, N.J. Over fifty years and we are still best friends and partners. Highlights of my manager position, I was awarded manager of the year. While manager of the Cooperstown N.Y. store, the Baseball Hall of Fame location, I was elected president of the Chamber of Commerce.

After five years in Cooperstown, (Sept.1980), I retired so we could travel throughout the U.S. in our new Ford van which we converted to a mini motor home. In four months, we traveled from N.Y. to Washington State and then back across the country to Miami, Fl. in December 1980 where Kathie's father lived.

We have since visited all 50 states and driven to Alaska from Key Largo Fl. three times. In Miami Kathie found employment as a NAPA store manager and I was hired as the store manager of all eleven duty free shops at MIA. After two years I was offered the position as liquor and tobacco buyer for the duty free shops in two airports and 102 cruise ships. Our company was the largest duty free operator in the U.S. My dealings were with the producers of wine and spirits and as such I traveled to Europe periodically to conduct business; Kathie changed jobs to become the store manager of the U of M medical bookstore. The largest of its kind in the U.S.

In 2001 we both retired, sold our house in Miami and moved to our house that we had designed and had built in Key Largo, Fl. in 1985.

We have traveled extensively visiting six of the seven continents and over 50 countries. There are many more countries, but we have visited the ones which have appealed the most to us. Our travels now are cruising with Viking Cruise Lines.

Susan Kolodin, Last Thoughts

Hello Bill,

Sadly, my beloved Susan unexpectedly died at home a week ago Tuesday, August 13th. Thankfully she did not suffer nor have the indignity of dying in a hospital room. As you can imagine, I'm still in a state of shock with indescribable pain, missing Susan terribly having had 36 glorious years together.

Needless to say, she enjoyed all the recent communications she had with you and her classmates. She so often spoke of the Deas!

Be well,

Jonathan Greenburg

From Ray Barleon:

Sue was a wonderful High School companion to us all, -- with many particular recollections when working on our beloved Yearbook. Sue was a literary editor and full of eager and unrelenting energy and humor, devoted to the task, with a delightful smile, working hard, gave valued ideas and suggestions. Someone you wanted to work with, knowing the product would be a success since she was a big, important and essential part of it. We admired and valued her contributions and friendship greatly. Rest in peace and eternal joy dear lady. You are among the finest. The salty tears are for now but the memories and happiness endure without end.

She said she would never ever forget us, and we in turn will never forget her.

October brings us Rosh Hashanah and Yom Kippur, that former Columbus, now Indigenous Peoples' Day (oh fine!)...and finally, Halloween (Boo).

September gave us hurricane Helena, causing many of us residing in Florida to lose power for extended periods of time. Hope none of us are in western North Carolina!

Annie Zimmerman sent along some postcards, that depict *dear old* Bloomfield...as we remember it.

You'll recall that we are in the process of reconnecting with some of us that don't seem to respond, if not just to check in to see if they are still among us. Some of their responses are enclosed. And, we learned that Mary Kuettel, Toni Marden and Phil Pampanella's computers are down.

No recent *finds* for September, but yet a plethora of passing's to report. Enclosed are Obits on Rudy Meier, Jack Van Orden and Kurt Kirsch. We'll include Obits for Wayne Almquist and Eugene Butler next month. And, sorry for the misspelling of Leonard Schwalm's last name in the September issue (Don Moore recalls that he and Leonard attended Brookside School, on Essex Avenue, and...shared the same birthdate).

Please consider reaching out to a few of our fellow classmates, as we all appreciate keeping in touch. Even those of us who didn't know each other at BHS now find we have much in common! And, when you have some news that you think might be of interest to the group, let us know and it will be broadcast in a next edition of our monthly newsletter.

Our next Zoom is scheduled for **November 1**, when Terry Iavarone, the girls' Varsity track and field coach will speak. His teams have won the last three league championships! Walter Riker expects he will be able to be our Zoom master.

Don't fall but live well...you deserve it (for being 86 years old).

Gone by now are the Thanksgiving turkey, stuffing and cranberry sauce. Too, those obnoxious (negative) political ads. And soon to be put back into storage, the myriad of Medicare Supplement Part C (for those that qualify) repetitious TV ads (December 7 I think)!

As you recall, the Bloomfield Education Foundation (Ann Dassing) has been an immense help to us, and one of their fundraisers is a raffle (10 chances to win \$1,000). Some of you have already subscribed for 2025. Enclosed is the application, probably not too late to enter.

Bob Quinn has prepared his what-have-I-done since high school, herein attached. And also enclosed is an obituary on Andy Svenson (if sent before, this is hopefully one in more detail). For those of you who knew Don Teller, two (?) classes ahead of us, his obit is included.

December 7 is Pearl Harbor day; how many of you have toured the Arizona Memorial and the battleship Missouri (the beginning and end of the war in the Pacific), now resting side by side? Winter begins on December 21...but from the weather reports I'm seeing, it may have already begun! And of course Christmas and Hanukkah on the 25th. So, Merry Christmas to all, and reminisce about *dear old* Bloomfield every time you hear *I'll be Home for Christmas* (I know I do).

Our next Zoom is Friday, **May 2**. We've asked the BHS principal to put us in touch with the *Student Prints* advisor...since so many did participate in that activity back in the day.

Be well, be safe, be warm, and don't fall...

A Message from Bob Quinn: A Lifetime of Service and Commitment

I'm honored to share my story with you—a journey that spans over six decades and is rooted in a deep commitment to service, leadership, and community.

Throughout my career and life, I've been fortunate to work in roles that allowed me to make a positive impact, whether in law enforcement, corporate security, or through my ongoing involvement in the U.S. Marine Corps League.

I grew up in New Jersey and graduated from Bloomfield High School in 1956. After high school, I headed out west to pursue my passion for football. I had the opportunity to catch passes from an All-American quarterback, but my dreams were cut short when I suffered a serious injury—torn ligaments in my ankles—after the final catch. I returned to New Jersey, where my journey in service truly began.

In 1958, I joined the New York-New Jersey Port Authority Police, serving from 1958 to 1965. I had the responsibility of policing some of the busiest and most important locations in the country, including the tunnels, bridges, and airports connecting New York and New Jersey. It was a high-stakes job, but one I was deeply proud to do. In 1958 I also enlisted in the Marine Corps Reserves and completed boot camp at Parris Island, SC. I later went on to complete advanced combat training at Camp Lejeune, NC. In 1960, I married my wonderful wife, Janet. Together, we raised four children, and Janet dedicated over 30 years to

teaching first grade in three different states.

In 1968, I joined the New Jersey State Police, where my career took another step forward. During my time on the force, I was involved in two major riots and later joined the Major Crimes Unit, investigating homicides and complex criminal cases. I had the privilege of traveling to five other states as part of these investigations. To expand my knowledge and expertise, I pursued education outside of work, earning an Associate Degree in Police Science from the City University of New York in 1965, and a Bachelor of Science in Criminal Justice from John Jay College in 1972. Along the way, I also completed specialized training in areas like forensic pathology, narcotics, and criminal interrogation.

One of the most challenging and rewarding investigations I worked on was the Exxon refinery explosion in Linden, NJ. This case brought together multiple law enforcement agencies and eventually led to the discovery of a major safety violation—faulty construction of critical steel components. This investigation, which lasted three months, had a significant impact on safety practices in the industry.

As a result of my experience and expertise, I was offered an opportunity to join Exxon's security team. After discussing it with Janet, I made the difficult decision to leave law enforcement and transition into corporate security. Over the next 25 years, I worked my way up through various roles, ultimately becoming Chief Special Agent, where I supervised 18 agents from city, state, and federal law enforcement agencies. My work took me across the country, from Pelham, NY, to Linden, NJ, to Tennessee, and finally to Houston, TX, where in 2000, I retired after a fulfilling career.

Even after retirement, my commitment to service didn't stop. I remain active in the U.S. Marine Corps League, where I served as Past Commandant of Texas. The League's efforts—such as supporting Toys for Tots, raising scholarships for military families, and honoring fallen Marines—are causes close to my heart. In

2009, I received the Legion of Honor Award from the Chapel of the Four Chaplains for community service. I also rose to the ranks of 4th Degree in the Knights of Columbus.

Janet and I now reside in Coppell, Texas, where I enjoy my retirement, though I continue to stay involved in my community and in various charitable initiatives. I am incredibly grateful for the opportunities I've had, the people I've worked with, and the experiences I've gained throughout my career. I'm proud to have had the chance to serve in so many ways, and I look forward to continuing to give back wherever I can.

Thank you for letting me share a bit of my journey with you. I look forward to staying connected and contributing to our community for many years to come.

Warm regards,

Bob Quinn
